

AFFIFA FATIMA

Full Stack developer

affifafatima1@gmail.com | 03091524458 | <https://www.linkedin.com/in/affifa>

SUMMARY

Full Stack Developer with skills in frontend and backend development using the MERN stack. Experienced in building responsive websites, creating APIs, and handling databases. Passionate about developing user-friendly web applications and learning new technologies to improve my skills.

PROJECTS

Issue Tracker – Final Year Project

- Developed a full-stack issue tracking system using Next.js, Node.js, and Supabase.
- Implemented features for issue management, status tracking, and user interaction.
- Built a responsive and user-friendly interface with backend integration and database handling.

Coffee Shop Website

- Developed a responsive coffee shop website using React.js.
- Created modern and interactive UI components for a better user experience.
- Implemented smooth navigation and mobile-friendly design.

E-Commerce Management System

- Developed a full-stack e-commerce platform with user authentication and product management.
- Implemented shopping cart, order management, and inventory tracking features.
- Built an admin dashboard for managing products and customer orders.
- Designed responsive UI and integrated REST APIs with MongoDB database.

Bookza – Book Marketplace Mobile App

- Developed a full-stack mobile application using React Native and Strapi for book buying, selling, and exchange.
- Implemented features like user authentication, book listings, search functionality, and marketplace system.
